
Leganto 2024 - 25 Roadmap Highlights

Overview

The Leganto roadmap is a means to communicate the key priorities and developments with the Leganto community. Our roadmap is organized into our 2024-25 roadmap categories of Simplified Onboarding, Library Efficiency, End-User Experience, and Analytics. Our roadmap places a focus on customer satisfaction and customer value and is based on feedback received from the Leganto community.

The Leganto roadmap gives a view of the development that can be expected. As priorities are developed by the community and information becomes available from the community voting, the roadmap will be updated to reflect updated development plans.

Click on the categories below to view more details.
