

## Why is a specific component not editable in Voyager?

- **Product:** Voyager
  - **Product Version:** all
  - **Relevant for Installation Type:** Multi-Tenant Direct, Dedicated-Direct, Local, TotalCare
- 

### Question

Why is a specific component not editable in Voyager?

### Answer

The holding location associated with the title is not selected in the operator's Acquisitions Security Profile.

### Additional Information

To confirm and resolve:

- 1) In Acquisitions, open the component's related Purchase Order
- 2) Click on Detailed Line Item View
- 3) Click on the Copies/Funds tab and scroll over to view Holdings location
- 4) In SysAdmin, go to Security>Operator Profiles and look up the operator experiencing the problem
- 5) Click on the Current Profiles tab and note which Acquisitions Security Profile the operator belongs to
- 6) Go to Security>Acquisitions/Serials Profiles and open the profile from step 5
- 7) Click on the Locations tab to verify that the location from step 3 is on the Available Locations side on the left
- 8) Select the location in question and use the > to move the Available Location to Selected Locations
- 9) Save the profile
- 10) Log out of Acquisitions then log back in again
