

How can I configure physical location maps to display in Primo?

- **Product:** Alma

Question

How can I configure physical location maps to display in Primo?

Answer

You can configure the "Locate" button to appear and link to a map of the item's physical location from (Configuration > From the drop-down menu on top select the library you want to configure > Fulfillment > Physical locations > Select the location you want to configure > Row actions > Edit).

In the "Map" field input a URL to the map you want to associate with this location.

Ex Libris Alma

Configuring: Graduate Library

Edit Physical Location

You are configuring: Graduate Library

Physical Location Details

Code: forlang

Name: Foreign Language Collection

Type: Open

Fulfillment Unit: General

External Name: []

Remote Storage: []

Map: www.genericURL.com

Physical Location Circulation Desks List

Name	Code	Name	Description	Check In	Check Out	Reshelve
1	DEFAULT_CIR...	Graduate Library Circulation	-	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

Holdings Configurations

Accession Placement: None

Suppress from Discovery:

Call Number Type: Library of Congress classification

Discovery Priority: Regular display

If you would like to configure URLs for physical location maps according to a template please see the following documentation, [Configuring the Template for the Location Map Link](#).
