## Overview

The Rapido roadmap is important for Ex Libris as a means to communicate the key Rapido priorities with the resource sharing community.

We take pride in the fact that this roadmap was built together with the Rapido community and is based on the community's future strategy for libraries / academic institutions.

Our roadmap and developments align with Rapido's pillars of being user centric for library end users and library staff, being a part of a strong interlibrary loan community and ecosystem, analytics, and sustainability.

The Rapido roadmap gives a view of the year ahead for the Rapido community.
