

Summon: Journal of Visualized Experiments Subscriptions - 2022

Which Journal of Visualized Experiments (JoVE) databases should I subscribe to for CDI?

As a Summon customer, which Journal of Visualized Experiments (JoVE) databases should I activate for the Central Discovery Index (CDI)?

You will need to subscribe to any of the databases below in the Client Center, to make the JoVE content available through Summon. Activate those collections, which you have purchased from JoVE.

Subscribing at an individual data-base level, more accurately facilitates rights management for Summn, and helps to prevent false positives in the search results.

--> Effective May 2022 customers have the option of activating "Master Collections" each of which include numerous individual collections. This is consistent with JoVE's newer sales model.

Current mapping:

COLLECTION_NAME	DBID	COLLECTION_DESCRIPTION
JoVE Biological Sciences	DOKSB	This package includes the Encyclopedia of Experiments: Biology, and the following JoVE research journals: Biochemistry, Biology, Developmental Biology, and Neuroscience. Core Biology, Core Molecular Biology, Lab Manual Biology, and Science Education subjects Advanced Biology and Basic Biology are also included.
JoVE Biomedical Sciences & Clinical Medicine	AAYME	This package includes the following JoVE research journals: Bioengineering, Biology, Cancer Research, Genetics, Immunology & Infection, Medicine, and Neuroscience. It also features both sections of the Encyclopedia of Experiments: Biology and Cancer Research. Science Education Clinical Skills, Core Biology, Molecular Biology, and Lab Manual Biology are also included.
JoVE Brain & Behavior	BCXXS	This package features Science Education subjects Psychology and Advanced Biology. It also includes Core Social Psychology and JoVE research journals Behavior and Neuroscience.
JoVE Chemistry & Environmental Science	AFXLY	This package includes Core Chemistry, Lab Manual Chemistry, and Science Education subjects Chemistry and Environmental Sciences. It also includes JoVE research journals Biochemistry, Chemistry, and Environment.
JoVE Education Unlimited	ABBLV	The Education package includes JoVE Core, Lab Manuals and all Science Education subjects–Biology, Chemistry, Clinical Skills, Environmental Sciences, Engineering, Physics and Psychology.

JoVE Engineering & Physics	ABHBS	This package includes the following JoVE research Journals: Bioengineering, Chemistry, and Engineering. Science Education subjects Engineering and Physics are also included.
JoVE Research Unlimited	ACFWJ	This package includes all JoVE research journals–Behavior, Biochemistry, Bioengineering, Biology, Chemistry, Developmental Biology, Engineering, Genetics, Immunology & Infection, Medicine and Neuroscience-and the both sections of Encyclopedia of Experiments–Biology and Cancer Research.
JoVE Unlimited	ABGSE	This package is JoVE’s complete video library. It includes all research journals–Behavior, Biochemistry, Bioengineering, Biology, Chemistry, Developmental Biology, Engineering, Genetics, Immunology & Infection, Medicine and Neuroscience–and all sections of Encyclopedia of Experiments (Biology and Cancer Research). JoVE Education collections, such as JoVE Core, Lab Manuals, and all Science Education subjects–Biology, Chemistry, Clinical Skills, Environmental Sciences, Engineering, Physics and Psychology are also included.
