

## Primo VE 2023 Known Issues

The following table lists the known issues for new features in the Primo VE 2023 release.

Category	Issue	Release
Browse Search	Browse Search and Virtual Browse can include records that are restricted or suppressed from discovery, but their access will be blocked to users. There is no plan to resolve this issue.	December 2023
My Library Card	For closed fine types in My Library Card, the remaining balance is displayed instead of the original amount. This will be fixed soon.	May 2023
Advanced and Basic Search	For advanced searches and basic searches using either the Pre-filter Bar or the new Resource Type Filter Bar, filtering by resource type (such as Images) in WorldCat scopes does not return items with the correct resource type. Currently, there is no plan to fix this issue.	May 2023
Search	When using the "equals exact phrase" search operator to search for authors and subjects, search terms are not highlighted in the results if the query contains multiple words.	May 2023
