## Roadmap Theme: Ecosystem

Ecosystem – RapidILL is a diverse ecosystem of libraries that use a varied set of tools/software to work with member libraries, whether they are close consortial partners, or across the globe.

## Ecosystem 2026 Roadmap

2026 H2

- Additional holdings integrations through OAI-PMH

---

## 2026 H2

---

### *Additional holdings integrations through OAI-PMH*

What's New

Highlights

Impact

<p>Ability for FOLIO institutions to schedule automated holdings loads.</p>	<p>Libraries will be able to automate their RapidILL holdings process resulting in weekly updates of their collections.</p>	<p>Automated holdings reduces staff time needed to manage holdings processes. As the OAI holdings harvesting runs on a weekly basis, holdings will be up-to-date, leading to improved lender selection, reduced request rejections, and faster turnaround times.</p>
