

## How to customize 'Give Us Feedback' icon?

**Product:** Primo

### Question

How to customize 'Give Us Feedback' icon?

### Answer

[Primo Studio](#) is used to understand how this procedure is done:

- under **Icons** tab, choose new icon for the send action, for example.
- download the customization package: You can see that Primo Studio is creating a **custom-ui.svg** file containing the icon ID & the new icon SVG and puts it into a customization package under **img** folder.

Perform these actions to change the Report a problem icon:

1. Create a new file named **custom-ui.svg** and paste the template below which I took from the **custom-ui.svg** file created by Primo Studio:  
`<svg xmlns=http://www.w3.org/2000/svg xmlns:xlink=http://www.w3.org/1999/xlink width="24" height="5000" viewBox="0 0 24 5000"></svg>`
2. Open [https://librarysearch.stir.ac.uk/discovery/custom/44BCU\\_INST-44BCU\\_INST/img/icon-report.svg](https://librarysearch.stir.ac.uk/discovery/custom/44BCU_INST-44BCU_INST/img/icon-report.svg)
3. Right-click on the icon > Save As
4. Open the saved file in a text editor and copy the svg field
5. Paste the svg field you copied into the template in **custom-ui.svg** (pasted text marked in yellow). In addition, add the id of the icon you want to change (marked in green). It should look like that:

```
<svg xmlns="http://www.w3.org/2000/svg" xmlns:xlink="http://www.w3.org/1999/xlink" width="24" height="5000" viewBox="0 0 24 5000">
```

```
<svg id="exclamation-mark" version="1.0" xmlns="http://www.w3.org/2000/svg" width="800.000000pt" height="800.000000pt" viewBox="0 0 800.000000 800.000000" preserveAspectRatio="xMidYMid meet">  
<g transform="translate(0.000000,800.000000) scale(0.100000,-0.100000)" fill="#000000" stroke="none">

</g>
</svg>

</svg>

```

6. Put the **custom-ui.svg** file under the **img** folder of the customization package.
7. Upload the package into the BO and deploy
