

Configuring Display Labels

The labels that display on the Brief Results, Full Display, Services, and My Library Card pages are configured by various code tables under the Discovery subsystem (such as Full Display Labels code table). The labels that appear to end users are configured with the Description field, which permits the use of HTML elements to provide customized formatting for [supported codes](#) only.

Note

To return a label to its out-of-the-box setting, select **Restore** from its row's action list.

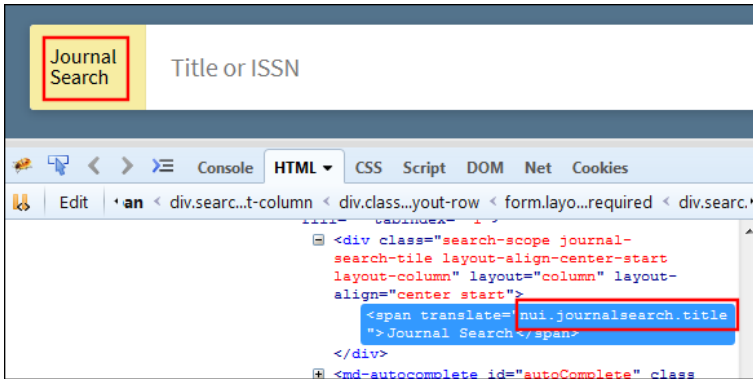

To modify a label:

1. Open the Discovery UI Labels code table (**Configuration > Discovery > Display Configuration > Labels**).

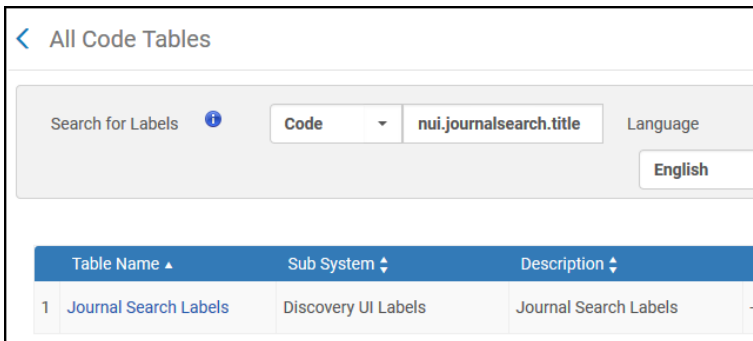

Table Name	Sub System	Description	Updated By	Customized	Patron Facing	
1 Advanced Media Type Labels	Discovery UI Labels	Advanced Media Type Labels	MattP	✓	✓	...
2 Advanced Search Index Fields Labels	Discovery UI Labels	Advanced Search Index Fields Labels	MattP	✓	✓	...
3 Advanced Search Languages Labels	Discovery UI Labels	Advanced Search Languages Labels	-		✓	...
4 Aria Labels	Discovery UI Labels	Accessibility aria labels	-		✓	...
5 Calculated Availability Text Labels	Discovery UI Labels	Contains code tables of Calculated Availability Text	-		✓	...
6 Citation Labels	Discovery UI Labels	Personalize Your Citation Labels	-		✓	...
7 Citation Linker Labels	Discovery UI Labels	Citation Linker Labels	-			...
8 Citation Trail	Discovery UI Labels	Get it service labels	-		✓	...
9 Digitization Labels	Discovery UI Labels	Digitization Labels	-		✓	...
10 Display Constants Labels	Discovery UI Labels	Display Constants codes	-		✓	...
11 e-Shelf Title Labels	Discovery UI Labels	Add To Shelf codes	-		✓	...

Discovery UI Labels Code Tables - Partial List

2. Select one of the following search options, type your search query, and then select **Search** to determine which code table and code that you need to modify:
 - **Code** – After inspecting the HTML source, you can search for a specific code. For example, the code for the **Journal Search** search box title is `nui.journalsearch.title` and is found in the **Journal Search Labels** code table:

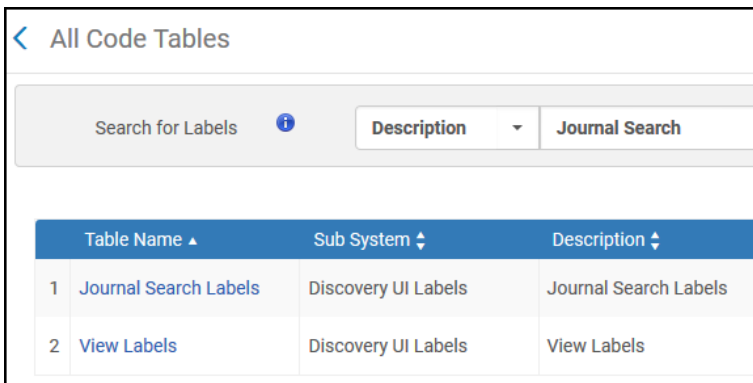

HTML Inspection to Find Code

Code Found in Code Table

- **Description** – If you do not know the specific code, you can also search for the display label. For example, the **Journal Search** label is found in the **Journal Search Labels** and **View Labels** code tables:

Label Found in Code Tables

3. Select **Customize** (initial customization) or **Edit** (subsequent customizations) in the row's action list to edit the code table.
4. For each code that you want to modify, update the **Description** field to change the code's display label.

Note

- If you do not want to display a code's label, specify **NOT_DEFINED** for English and all other languages that
-

you support.

- The setting of the **Enabled** field does not affect the label display.
- To define a view-specific label, create a new row using the following format for the code: `<Institution's Code>:<View's Code>.<Label's Code>`. The system will use the code without the prefix for the default label.

-
5. When customizing a table for the first time, select **Customize** to save your changes and return to the Discovery subsystem page. After an initial customization, you must select **Save** to apply your changes.

Codes That Support HTML Formatting

The following table lists the codes that support HTML formatting in the Description field to provide additional formatting for the label.

Code Table	Supported Codes
Error Messages Labels	<p>The following labels appear on the No Search Results page:</p> <ul style="list-style-type: none">• <code>nui.noresults.title</code>• <code>nui.noresultswithfilter.description</code>• <code>nui.noresults.description</code>• <code>nui.noresults.suggestions1</code>• <code>nui.noresults.suggestions2</code>• <code>nui.noresults.suggestions3</code>• <code>nui.noresults.suggestions4</code>• <code>nui.noresults.suggestions5</code>
Get it service labels	<p>The following label appears for the location filter on the Full Display page:</p> <ul style="list-style-type: none">• <code>nui.locations.filter.message</code>
Resource Sharing Labels	<p>The following label appears on the Resource Sharing Request Form:</p> <ul style="list-style-type: none">• <code>almaResourceSharing.formDescription</code> <p>For additional details, see Adding a Description to a Form.</p>
GetIT! Tab1 Labels	<p>The following labels appear in the View Online section on the Full Display page:</p> <ul style="list-style-type: none">• <code>nui.getit_full.multiple_linktorscr_subsc</code>• <code>nui.getit_full.multiple_linkresolver</code>• <code>nui.getit_full.multiple_linktorscr_oa</code>

Code Table	Supported Codes
Links and General Electronic Services Labels	<p>The following labels appear in the View Online section on the Full Display page:</p> <ul style="list-style-type: none">• <code>fulldisplay.Access_content_in</code>• <code>fulldisplay.View_full_text_in_collection</code>
