
BIBSAM collections not maintained on KB+ platform

- **Product:** Alma, 360 KB, SFX
- **Product Version:** all
- **Relevant for Installation Type:** all

As of July 1st 2023, BIBSAM collections are no longer updated on KB+ platform, due to their transition to GOKb collection management service.

Updates, removals and additions will not be reflected in these collections.

In Alma CZ they will be marked as management level "not maintained".

We are working with GOKb to establish an updated feed for these collections, as well as other collections provided and maintained by GOKb.
