

## Annual Collections 2024

Below is a table outlining the list of 2024 annual collections we are currently processing for ingestion in the Delivery Knowledge Bases: 360 KB, SFX KB, and Alma CZ.

We will update this table with our progress so that you can follow the addition of these collections.

If you are familiar with a provider supplying annual collections who are not included in the list below, please let us know via Idea Exchange so we can reach out to them and begin the process. Please emphasize that this is a request to add a new provider to the annual collections list.

To request new collections that are not annual collections, please follow [how can I request new collections to be added](#).

### Note

The following consortia annual collections are published throughout the year according to the consortia's schedule:
