

Primo VE 2024 Known Issues

The following table lists the known issues for new features in the Primo VE 2024 release.

Category	Issue	Release
Authority Search	Regarding Authority Search there is a known issue with the indexing of Bib headings that returns incomplete results. This issue should be resolved in January 2025 after the re-indexing completes.	May 2024
Export All Results	<ul style="list-style-type: none"> • Export All Results is available only from the first page. • After the Export All action was performed, the action bar remained opened. 	August 2024 – Fixed in August release
Auto-complete	The Auto-Complete feature is not functioning as expected, which may lead to intermittent results and instability for users. Currently, we are working on a new design to handle these issues.	March 2024
Paging	Primo VE supports the display of up to 2000 records in the results, but a page loading performance issue may occur when loading too many records using the offset parameter in the URL. Currently, there is no plan to fix this issue, but the Bulk Export option is recommended as an alternative.	March 2024
