
2024 RN 04 Issues

- **April 2024 Acquisitions SF: 06530558**
For missing PO lines when performing an EDI import, the error did not include the PO line or vendor reference number. This was fixed.
- **April 2024 Acquisitions SF: 06664602**
An incorrect vendor was displayed when approving and ordering purchase requests. This was fixed.
- **April 2024 Acquisitions SF: 06990717 06930035**
In some cases, if the PO line reference contained a backslash character / the information did not display properly in the Summary tab. This was fixed.
- **April 2024 Acquisitions SF: 06689326 06703920**
Purchase request list returned duplicate values when moving in pagination; the last record in page A was the first record in page A+1. This was fixed.
- **April 2024 Acquisitions SF: 06672790**
In the POL Invoice Lines tab the transactions list was filtered by the wrong invoice number. This was fixed.
- **April 2024 Acquisitions SF: 6672460 06923920**
The Alma Analytics Monthly Usage Report did not show "more information" if no data was loaded. This was fixed and the "No usage data was loaded" message now displays.
- **April 2024 Acquisitions SF: 06856541**
A second claim letter for the same journal issue was sent one day after the first claim was sent. This was fixed.
- **April 2024 Acquisitions SF: 06802421**
The Sushi usage data time zone was inconsistently used. This was fixed.
- **April 2024 Acquisitions SF: 06941374 06992813 06909222**
If a PO line was in claim, the claiming list contained all the items that were not received. This was fixed and now the claiming list only displays items that were not received and had the expected receiving date and grace period in the past.
- **April 2024 Acquisitions SF: 6819403 06913186**
The "update poline - advanced" job would fail when running on a set containing PO lines attached to PO. This was fixed.
- **April 2024 Acquisitions SF: 06860959 06959212**
When creating an order from CZ, the IZ indication appeared instead of CZ in the purchase order line details. This was fixed.
- **April 2024 Acquisitions SF: 06751108**
A comma was added to the Item Description when modifying any field in the PO Line. This was fixed.
- **April 2024 Acquisitions SF: 06971734**
In the new UI for PO lines, the Receiving operator role could not edit and save PO lines when coming from the receiving Work Bench. This was fixed.
- **April 2024 Acquisitions SF: 07000124**
Receiving note and Activation note were not translated (and not translatable) in the icon when performing a mouse over. This was fixed.
- **April 2024 Acquisitions SF: 6946420**
If the "QUANTITY_PER_ITEMS in PO Line" field was null, it was not possible to change the quantity in the "Update PO Line Transaction" Job. This was fixed.
- **April 2024 Acquisitions SF: 07040032**
The POL Status was not included when exporting POLs. This was fixed and the POL Status was added to the export right after the Type column.
- **April 2024 Acquisitions SF: 6949709 06983720**

The PDA Repository Import Profile completed with errors when processing a delete of an empty bibliographic record. This was fixed.

- **April 2024 Acquisitions SF: 6933196**
A Brief Bib was created when a purchase request was attempted by an expired user from Primo. This was fixed and now the user gets an Unauthorized message.
- **April 2024 Acquisitions SF: 07039801**
There was an error when making changes to the Webhooks Integration Profile. This was fixed.
- **April 2024 Analytics and Insights SF: 6859166**
Subscribers to the analytics object "Fulfillment - 30 days past due" did not receive the report. This was fixed.
- **April 2024 Analytics and Insights SF: 06978905**
Incorrect information was displayed in reports for the Renewals field (Fulfillment > Loan). This was fixed.
- **April 2024 Analytics and Insights SF: 07021720 06988546**
Patron Statistical Category data is missing for renewals. This was fixed.
- **April 2024 Analytics and Insights SF: 06938757**
The "Upload" option in the Alma Analytic folders to upload a logo to reports did not appear. This was fixed.
- **April 2024 Analytics and Insights SF: 06988408**
When creating reports for fines in Alma Analytics, the report displayed multiple lines for the same fine. This was fixed.
- **April 2024 Analytics and Insights SF: 06942211**
The "Expired" status was not displayed for the Patron Active Status field (Borrowing Requests (Resource Sharing) > Borrowing Request Details). This was fixed and now the "Expired" status is displayed.
- **April 2024 Analytics and Insights SF: 07039785**
Permissions for data sets are not remembered by Alma Analytics and need to be reset repeatedly. This was fixed.
- **April 2024 APIs SF: 06490693**
For the NACSIS-CAT Cloud App, when importing, some records did not have \$\$2 in field 015. This was fixed.
- **April 2024 APIs SF: 6800679**
CN domain was added to JCR cloud app version 2.3.1.
- **April 2024 APIs SF: 07015213 07058276**
Regenerating keys for RSA SFTP server created malfunctioning private key. This was fixed.
- **April 2024 Digital Resource Management SF: 07015125 06894835**
The Digital Viewer did not display remote representation videos from YouTube. This was fixed.
- **April 2024 Digital Resource Management SF: 06962598**
In some cases, the Extract Fulltext job did not extract did not extract fulltext from PDF files with special unicode characters. This was fixed.
- **April 2024 Electronic Resource Management SF: 06660545**
The incremental, multi-campus mode version of the Upload Electronic Holdings job for EBC occasionally completed with errors. This was fixed.
- **April 2024 Electronic Resource Management SF: 06970528**
The display of portfolios' coverage in the electronic service editor was inaccurate when using a date format with dots (dd.MM.yy). This resulted in incorrect date representation. This was fixed, now the coverage column accurately displays the date information.
- **April 2024 Fulfillment and Resource Sharing SF: 06974577**
If the Booking Resolution policy was set to Days, when a patron attempted to place a same-day booking request through Primo, the request was incorrectly blocked with the error message "Date must be in the future". This was fixed and now same-day booking is allowed.
- **April 2024 Fulfillment and Resource Sharing SF: 06664346**
When a Rapido request originates from a Primo VE search, the permalink is now visible in the record Permalink field.
- **April 2024 Fulfillment and Resource Sharing SF: 06576251**
The Document Delivery Notification Letter had an empty <flat_d> section when the partner of the borrowing request was RapidILL. This was fixed.
- **April 2024 Fulfillment and Resource Sharing SF: 06852167**
Remote storage NCIP check-in did not fulfill restore requests. This was fixed.

- **April 2024 Fulfillment and Resource Sharing SF: 06869663**
The Update BLDSS Requests job did not updated the status of borrowing request to Rejected. This was fixed.
- **April 2024 Fulfillment and Resource Sharing SF: 06881780**
In the physical item editor, when changing the permanent location of an item in process, the list of departments under the "At" field was not refreshed. This was fixed.
- **April 2024 Fulfillment and Resource Sharing SF: 06918883**
In some cases, exporting citations from a list to Excel failed. This was fixed.
- **April 2024 Fulfillment and Resource Sharing SF:**
It was possible to change the code of the Remote Storage, which led to errors. This was fixed and it is no longer possible to edit the code of the Remote Storage.
- **April 2024 Fulfillment and Resource Sharing SF: 07041691 07041691 07041774 07047109**
The new hold shelf policy configuration for resource sharing requests was not working correctly. This was fixed.
- **April 2024 Metadata Management SF: 07077415 06685663**
The NACSIS to Alma and Alma to NACSIS crosswalks did not have handling for "parallel title" data included in the TRD ("book title") NACSIS field. This has been fixed and the field was added.
- **April 2024 Metadata Management SF: 06811756**
NACSIS-CAT was incorrectly handling multiple publishers in field 264. This was fixed and if the Alma 264 field has multiple \$b, then they will be concatenated into a single PUBL= field in the NACSIS record, delimited by " : ".
- **April 2024 Metadata Management SF: 06847922 06866858**
In some consortiums, a consortia member was erroneously displayed in the Network Zone inventory list results (Held by). This was fixed and now the 'Held by' details page shows the correct institutions for each title.
- **April 2024 Metadata Management SF: 06946002**
Physical holdings search switches to All titles when using the View-options in the results. This was fixed.
- **April 2024 Metadata Management SF: 06941931**
Links between bib records (via 773 \$w) were not created when the bib record had fields with text longer than 255 characters. This was fixed.
- **April 2024 Metadata Management SF: 06953099**
Advanced search for "Country of Publication" = "Georgia" (008 code gau) did not find records. This was fixed.
- **April 2024 Metadata Management SF: 06964229**
Export to Excel file fails when clicking on "View Holdings of related record" in the Holdings sections. This was fixed.
- **April 2024 Metadata Management SF: 07021802**
General Publishing > Entire Repository mode - Records that were updated close to the publishing start runtime were sometimes not published. This was fixed.
- **April 2024 Metadata Management**
Previously, there was an unexpected behavior where process IDs were duplicated, resulting in entire rows being duplicated in the export file. Additionally, this led to some jobs not being included in the exported file. This was fixed. Now, in the exported Excel file, each process ID is unique, and all jobs run within the specified date range are included. Duplicate job IDs are no longer exported from the Monitor Jobs Page.
- **April 2024 Physical Resource Management SF: 06865905**
Items List > Select items > Manage selected > Change Holdings: Linking selected items to another holdings record took a very long time for a bib record with many items in total (usually more than 1,000). This was fixed.
- **April 2024 User Experience, Accessibility & Infrastructure SF: 06762810**
Users that have a Fulfillment Administrator role in read-only were only able to edit the configurations in the following cases:
 - In "opening hours" after clicking the import button
 - In configuration tables that are managed by the network

Both of these issues were fixed.

- **April 2024 User Experience, Accessibility & Infrastructure SF: 06976563 06731647**
When a user's note included a "\$" letter, the history user tab only displayed the text up to the \$. This was fixed and now the entire note text is displayed.
- **April 2024 User Experience, Accessibility & Infrastructure SF: 06907704 06956288 06956288**

In the PO Line Form, the values in the dropdown for 'Renewal reason' displayed in English but were not translated in other languages. This was fixed and the translations appear as expected.

- **April 2024 User Experience, Accessibility & Infrastructure SF: 06969227**
When a new notification is added to the Alma homepage notifications via configuration, all other notifications received the same Last Updated date. This was fixed.
- **April 2024 User Experience, Accessibility & Infrastructure SF: 07000087**
In (Borrowing requests -> Active requests) when cancelling a request, the Cancellation reason label was not translated. This was fixed.
- **April 2024 User Experience, Accessibility & Infrastructure SF: 07021199**
Alma-D and Primo URLs were not blocked by the IFrame Embedding Options. This was fixed and all declared products are blocked.
- **April 2024 User Experience, Accessibility & Infrastructure SF: 07011994**
The Internet Archive Book Reader viewer does not display any content. This was fixed.
