

## 360 KB: Databases from Emerald: Database Name Change -- April 2024

### What is happening to the names of some Emerald databases?

The databases from the provider Emerald are named incorrectly.

Therefore, we will be changing the databases' name in the Knowledgebase. The content of the databases, and the databases' IDs, will remain the same.

**Actions you may need to take:**

- If you are a 360 MARC Updates client and have requested the custom specification that adds the database name as it appears in the Client Center/Intota to MARC records, you can expect to see some change records when you get your MARC records after April 30, 2024.
  - If your library uses a third-party service (such as EBSCO A-Z, etc.), custom scripts to manage data, or other non-ProQuest tools that require the database name to function, you should note the change in ProQuest's database name in order to retain the proper relationship/mapping between those tools.
