

360 KB: Databases from Gale: Titles Will Be Removed -- June 2024

What is happening to the databases from Gale?

ProQuest currently has title-level information for the databases from provider Gale in the Knowledgebase. The provider has changed the to index-only databases and there is no full-text included in the databases.

The databases from the provider Gale are no longer being updated. In order to maintain accurate and authoritative provider metadata (based on our [Knowledgebase collection policy](#)), all titles will be removed from the databases and the databases will be [hidden](#) in the Knowledgebase on **June 17, 2024**. The databases will become zero-titles databases, and no future subscriptions will be possible.

Please refer to the below removal database and its replacement details
