

Annual Collections 2025

Below is a table outlining the list of *2025 Annual Collections* we are currently processing for ingestion in the Delivery Knowledge Bases: 360 KB, SFX KB, and Alma CZ.

We will update this table with our progress so that you can follow the addition of these collections.

If you are familiar with a provider supplying annual collections that are not included in the list below, please let us know via Idea Exchange so we can contact them and begin the process. Please emphasize that this is a request to add a new provider to the Annual Collections list.

<https://ideas.exlibrisgroup.com/forums/574345-content>

To request new collections that are not annual collections, please follow [how can I request new collections to be added](#).

Note

1. The following consortia's annual collections are published throughout the year according to the consortia's schedule:
 - BIBSAM (CON-176872)
 - JISC (CON-176182)
 - MALMAD (Hebrew) (CON-175969)
 - Scholars Portal (CON-174372)
 - SHEDL
2. The following providers are part of the [Manifest initiative](#) and their collections are created in an expedited workflow
 - Taylor & Francis Books | De Gruyter | Numerique Premium
3. There can be cases where the “Expected Date” and the “Expected release” will be populated, but the fully received column may still not be populated with “Yes”, this is because we may be expecting more content to arrive from the provider during the year, with no exact time.

Provider Name	Ticket Number (internal)	Expected Date to Receive	Title List from Provider	Expected Release	Fully Received
Alexander Street	CON-174445	June 2025 - Received		June 2025 - Released	Yes
