Kanopy Australia Academic PDA Collection	61554802920000041
Kanopy New Zealand Academic PDA Collection	61554802900000041

#### Actions that need to be taken by the customers:

- Please make sure to activate a collection relevant for your geographic region under the OverDrive interface
- Please note that the URLs for each title include a placeholder for the institution code, for example [https://\[institution\].kanopy.com/node/62746](https://[institution].kanopy.com/node/62746)

Where [institution] stands for a "VP Stem" that your institution was granted by Kanopy. I.e., if Ex Libris were a Kanopy customer and had a VP Stem's value "exl", the URL should be

<https://exl.kanopy.com/node/62746>

If you are unsure what is the relevant value for your institution, please contact your Kanopy Account Team.

- If you have activated any legacy Kanopy databases under Kanopy interface, please de-activate these as are going to be removed soon.
