

## Library Open Platform - Solr8 Infrastructure Upgrade [Progress Update]

- **Product:** Alma, Rapido, Leganto, Esploro

This page serves as a central hub for tracking the progress of the Library Open Platform Solr8 infrastructure upgrade.

This change affects Alma, Rapido, Leganto, Esploro and Rialto

This upgrade is gradual, and is enacted instance by instance.

Below is the status of each instance, its expected completion date, and cases reported in the instance that will be resolved when the upgrade is implemented.

As of 15/10/2025, the project is complete and all instances are running with Solr8.
