

What is Paperpal Preflight Pre-submission Check Tool in RefWorks?

[RefWorks Paperpal Preflight tool](#) is accessible in RefWorks Citation Manager (RCM) for [Word](#) and [Google Docs](#).

It is a free tool provided by RefWorks in collaboration with Paperpal. Paperpal's Preflight tool enhances the writing and submission process by providing language and technical compliance checks, ensuring manuscripts are submission ready.

Preflight Pre-submission Check performs a comprehensive scan of manuscripts for technical compliance and language quality, ensuring appropriate grammar, writing mechanics, readability, and academic vocabulary. It will also review technical aspects related to references, disclosures, limits, figure, tables, etc.

Post assessment, a free submission readiness report will be generated, highlighting areas of compliance and areas needing improvement.

Currently, doc, docx, and PDF file formats are supported.

Institutional admins can enable or disable access to this feature for their users in Admin Settings Preferences.
