

## Pivot -RP - Q1 2025

Uptime Quarterly Reports are published each quarter to provide a comprehensive view of our uptime performance as measured over the last three (3) months and over the last twelve (12) months. The report measures our performance as defined in the Service Level Agreement.

**The uptime measured on a rolling 12-month basis from April 2024 to March 2025 is 100%.**

**The uptime measured on a rolling 3-month basis from January 2025 - March 2025 is 100%.**

Please note our System Uptime Status page, which allows our customers to view the current status of their instance/ environment at any time, using the following link: <http://status.exlibrisgroup.com>

## Unscheduled downtime incidents in Q1 2025

Dat	Start time [CET]	End time [CET]	Duration (minutes)	Description
-----	---------------------	-------------------	-----------------------	-------------

---

## Scheduled downtimes during maintenance windows in Q1 2025

Start Date	Day of Week	Start Time [CET]	End Time [CET]	Duration (Minutes)
January 09, 2025	Thursday	16:56	17:13	17
January 11, 2025	Saturday	09:02	09:12	10
January 11, 2025	Saturday	11:43	12:22	51

---

## Total unscheduled downtime minutes during the past 12 months

Quarter	Total unscheduled downtime in Quarter (minutes)
Q2 2024	0
Q3 2024	0
Q4 2024	0
Q1 2025	0

---

## How is Uptime Calculated?

The uptime calculation is based on the following calculation (as defined in the Service Level Agreement):

**"Uptime"** means the total period in minutes during which the Service is available for access and use during this period.

**"Uptime Percentage"** means Uptime expressed as a percentage, calculated by the following formula:

$$\text{Uptime Percentage} = X / (Y - Z) \times 100$$

Where:

X = Uptime

Y = Last 12 months period

Z = The duration (in minutes) of any SLA Exclusions\* during these 12 months

\*SLA exclusions are defined in the contract SLA (e.g. Scheduled maintenance, etc.)

---
