

Annual Collections 2026

Below is a table outlining the list of *2026 Annual Collections* we are currently processing for ingestion in the Delivery Knowledge Bases: 360 KB, SFX KB, and Alma CZ.

We will update this table with our progress so that you can follow the addition of these collections.

If you are familiar with a provider supplying annual collections and is are not included in the list below, please notify us via [Idea Exchange](#) so we can contact them and initiate the process. Please emphasize that this is a request to add a new provider to the Annual Collections list.

To request new collections that are not annual collections, please follow [how can I request new collections to be added](#).

Note

- The following consortia's annual collections are not part of the table below, as they did not provide an "Expected Date to Receive". Accordingly. These will be released throughout the year, according to the consortia's schedule
 - BIBSAM
 - JISC (including SHEDL)
 - MALMAD (Hebrew)
 - Scholars Portal
- In certain cases, the 'Expected Date' and 'Expected Release' fields may be populated, while the 'Fully Received' column remains blank. This indicates that additional content from the provider is anticipated during the year, with no confirmed delivery timeline.

Provider Name	Ticket Number (internal)	Expected Date to Receive Title List from Provider	Expected Release	Fully Handled
Alexander Street	CON-181046	No Annual Collections are expected for 2026		Yes

World Scientific Publishing	CON-181401	No timeline from the provider as yet		

The following providers (Sorted by providers' names) will not have a value populated in the “**Expected Release**” column, as they are part of the [Manifest initiative](#), and their collections are created in an expedited workflow. Once the collections are fully received, this will be marked accordingly in the “**Fully Handled**” column.

Provider Name	Fully Handled
Adam Matthew	
American Mathematical Society	
Brill	
Casalini	
Cyberlibris	
Edward Elgar	

iG Publishing	
Kohlhammer	
Manchester University Press	
Mark Allen Group (MAG)	
Nomos - Please follow Inlibra (CON-182810)	Yes
