

Pivot -RP - Q3 2025

Uptime Quarterly Reports are published each quarter to provide a comprehensive view of our uptime performance as measured over the last three (3) months and over the last twelve (12) months. The report measures our performance as defined in the Service Level Agreement.

The uptime measured on a rolling 12-month basis from October 2024 to September 2025 is 100%.

The uptime measured on a rolling 3-month basis from July 2025 - September 2025 is 100%.

Please note our System Uptime Status page, which allows our customers to view the current status of their instance/environment at any time, using the following link: <http://status.exlibrisgroup.com>

Unscheduled downtime incidents in Q3 2025

Dat	Start time [CET]	End time [CET]	Duration (minutes)	Description
-----	------------------	----------------	--------------------	-------------

Scheduled downtimes during maintenance windows in Q3 2025

Start Date	Day of Week	Start Time [CET]	End Time [CET]	Duration (Minutes)
July 12, 2025	Saturday	9:15 AM	23:54 AM	879

Total unscheduled downtime minutes during the past 12 months

Quarter	Total unscheduled downtime in Quarter (minutes)
Q4 2024	0
Q1 2025	0
Q2 2025	0
Q3 2025	0

How is Uptime Calculated?

The uptime calculation is based on the following calculation (as defined in the Service Level Agreement):

"Uptime" means the total period in minutes during which the Service is available for access and use during this period.

"Uptime Percentage" means Uptime expressed as a percentage, calculated by the following formula:

$$\text{Uptime Percentage} = X / (Y - Z) \times 100$$

Where:

X = Uptime

Y = Last 12 months period

Z = The duration (in minutes) of any SLA Exclusions* during these 12 months

*SLA exclusions are defined in the contract SLA (e.g. Scheduled maintenance, etc.)
