Linked Open Data Editor

February 2026

Alma now supports BIBFRAME cataloging via the new Linked Open Data Editor! The BIBFRAME linked data ontology was developed by the Library of Congress, and is based on RDF using properties and classes. If your institution wishes to enable BIBFRAME cataloging, your administrators can do so under Configuration > Resources > Activate Linked Open Data Formats.

Media, iframe, embed and object tags are not supported inside of a PDF.

Add MARC Field Indexes to Repository Search

February 2026

Administrators can now add custom bibliographic indexes to the available repository search fields for your institution in Alma.

Media, iframe, embed and object tags are not supported inside of a PDF.

Override Patron Hold Policies

February 2026

Library staff, with appropriate privileges, can now see what blocks are preventing or limiting a hold request, and can override them, if authorized. This enhances library flexibility and adds transparency for the staff to the request process.

Media, iframe, embed and object tags are not supported inside of a PDF.
