

## Rialto Roadmap - Completed - 2025 H1

### Marketplace

#### Marketplace: Alibris Integration

What's new	Highlights	Impact
Rialto users in the UK will have the option to order out-of-print books through Alibris within Rialto.	<ul style="list-style-type: none"> <li>• Works that have unavailable print offerings from Rialto will now display Alibris offerings when in stock with Alibris.</li> <li>• Users will be able to order titles through the standard order workflow in Rialto.</li> <li>• Titles ship to UK facility for physical treatment.</li> </ul>	When opted in, Rialto users will have the ability to purchase a wide variety of out-of-print titles provided via Alibris. This saves staff an extra step, no longer having to search elsewhere outside the Rialto workflow for their content.

#### Marketplace: Subscriptions Page

What's new	Highlights	Impact
A new page in Rialto "Ebook Central Subscriptions" listing the library's active Ebook Central subscriptions, and others that are available for activation.	<ul style="list-style-type: none"> <li>• A list of the most popular subscriptions available from Ebook Central that are available for activation.</li> <li>• For each active subscription, Rialto will display:                             <ul style="list-style-type: none"> <li>◦ The entity that owns the subscription the library has access to (the university and/or consortium)</li> <li>◦ Start and end dates.</li> <li>◦ Badging on offers in the marketplace that indicate the title is held as part of a subscription with the name exposed on hover.</li> </ul> </li> </ul>	Easy access to subscription information to better inform selection decisions.

---

## Marketplace: Predicted to be Treated

What's new	Highlights	Impact
A new field within the query builder, "Predicted to be Treated," will be available for increasing the scope of quality content for searches and profiles.	<ul style="list-style-type: none"><li>• New query builder field "Predicted to be Treated."</li><li>• Users can select how wide of a range they would like to cast – from an additional fifty thousand titles to three hundred and fifty thousand.</li><li>• Generates a list of titles that would qualify to be treated based on typical treatment values such as publisher, classification, award winning, highly reviewed, etc.</li></ul>	Previously, users were only able to include Treated titles in their plans and feeds, which may have missed potential quality titles that had not yet been treated. Now, users can expand their results by including titles that are likely to be treated in the future.

---

## Marketplace: Updated VPAT

What's new	Highlights	Impact
New accessibility audit with updated VPAT documentation for 2025.	<ul style="list-style-type: none"><li>• Once the audit process is complete, a new VPAT document will be published on the <a href="#">Rialto accessibility webpage</a> in the Knowledge Center.</li></ul>	At Ex Libris, part of Clarivate, we make every effort to ensure that our platforms—including Rialto—can be used by everyone. Rialto is continually designed and developed to meet Level AA of the W3C Web Content Accessibility Guidelines (WCAG 2.1) and Section 508 of the US Rehabilitation Act for features and functions.

---

## Marketplace: PDF Invoice in the Order History

What's new	Highlights	Impact
PDF invoices handled by the new invoicing platform will be accessible from the Order History page.	<ul style="list-style-type: none"><li>• When a PDF invoice is available, it will appear at the top of the order details for every POL associated with the invoice.</li></ul>	Staff will have easy access to the PDF invoice for orders; saving time and reducing clicks.
