## Brill - Removal of Brill.com Collection from Ex Libris Knowledgebases

The *Brill.com* collection was originally created when Brill provided a single combined title list that included both ebooks and journals. Brill discontinued this delivery approach several years ago and now supplies separate title lists for ebooks and journals.

As a result, the *Brill.com* collection no longer reflects Brill's offerings or subscription models and is being removed to prevent confusion and ensure accurate activation options for libraries.

Collection Name: **Brill.com**

Alma Collection ID: **61490000000001802**

360 DBID: **AMFWP**

### Current Brill Collections That Replace Brill.com

#### 1. Brill E-Book "All Titles"

- Collection Name: **Brill – All E-Book Titles/Brill Online Books**
- Alma Collection ID: **61317000000000148**
- 360 DBID: **ABLNI**

#### 2. Brill Journal "All Titles" – Now Yearly Collections

Brill's journal "all titles" product is now provided as **annual subscription collections**, beginning in 2020. These reflect how Brill sells its journal packages to libraries.

The following yearly collections are available:

- **2020 Brill Journal Collection**

Alma Collection ID 61528000000002496/360 DBID: AJUIR

Each yearly journal collection is independently maintained and reflects the subscription titles active for that year.

#### **Reason for Removal:**

- **No updates in several years**, making the collection outdated and inaccurate.
- **Brill no longer provides a combined book + journal title list**, so the collection cannot be maintained going forward.
- Fully supported alternative collections now exist for both ebooks and journals.
