## 360 KB: CSIRO Publishing: Database Name Changes -- March, 2026

---

### What is happening to the name of databases from CSIRO Publishing?

The following databases from the provider CSIRO Publishing are named incorrectly.

Therefore, we will be changing the databases names in the Knowledgebase. The content of the databases, and the database IDs, will remain the same.

This change will take effect on **March 30, 2026**:

Old Name	New Name	DBID
CSIRO Books Part A 2024	CSIRO 2024 Part A Package	DJYIU
CSIRO Books Part B 2025	CSIRO 2025 Part B Package	AIPAC
CSIRO Books Archive	CSIRO Archive 1: Years 1966 to 2011	CAPYB

#### Actions you may need to take:

- If you are a 360 MARC Updates client and have requested the custom specification that adds the database name as it appears in the Client Center/Intota to MARC records, you can expect to see some change records when you get your MARC records after March 30, 2026.
- If your library uses a third-party service (such as EBSCO A-Z, etc.), custom scripts to manage data, or other non-ProQuest tools that require the database name to function, you should note the change in ProQuest's database name in order to retain the proper relationship/mapping between those tools.
