

## 360 KB: Springer Online Journals - CAUL from Springer Nature: Database Name Change -- April 2026

---

### What is happening to the name of database Springer Online Journals - CAUL?

The provider Springer Nature has changed the name of the database Springer Online Journals - CAUL.

Therefore, we will be changing the database name in the Knowledgebase. The content of the database, and the database ID (ABTEG), will remain the same.

This change will take effect on **April 24, 2026**:

- Before April 24, 2026: Springer Online Journals - CAUL
- After April 24, 2026: **Springer Nature CAUL Springer Journals All**

#### **Actions you may need to take:**

- If you are a 360 MARC Updates client and have requested the custom specification that adds the database name as it appears in the Client Center/Intota to MARC records, you can expect to see some change records when you get your MARC records after April 24, 2026.
- If your library uses a third-party service (such as EBSCO A-Z, etc.), custom scripts to manage data, or other non-ProQuest tools that require the database name to function, you should note the change in ProQuest's database name in order to retain the proper relationship/mapping between those tools.
