
Voyager ISBN/ISSN Validation

This lesson is available as a document. Please download handout.

Description	Voyager ISBN/ISSN validation discusses and demonstrates the process of checking an ISBN (10 or 13) or ISSN number for validity. Most examples are explained through the cataloging modules. Acquisitions and Circulation validation are also discussed.	Attachments Handout
Target Audience	Technical Services. Acquisitions and circulation staff who create bibliographic records.	
Prerequisites	Attendees should have a basic knowledge of MARC and item records in Voyager
