Remove non-Alma Google Scholar Links

- **Article Type:** General
- **Product:** Alma

Problem Symptoms:
After configuring Google Scholar publishing in Alma and publishing holdings successfully, Google Scholar continues to also run via our old SFX profile settings, which we are now unable to disable

Cause:
Google Scholar setup for the legacy link resolver needs to be deactivated

Resolution:
* For SFX - please open a Support Case to the attention of the SFX Team
* For other link resolvers (e.g., Serials Solutions, ProQuest), please contact the third party provider

Category: Uresolver
