Question

How can the inactive, grayed-out checkboxes be removed from the Primo Find Databases lightbox?
It is hard to tell the difference between the inactive and active checkboxes.

Answer

In the local CSS file, add

```
/* REMOVE INACTIVE CHECKBOXES IN FIND DATABASES LIGHTBOX */
```

```
#exlidFindDBTile div.EXLFindDBList div.EXLFindDBCheckbox input[type="checkbox"][disabled] { Visibility: hidden; }
```
