

"You have not performed a search" error message

- **Article Type:** General
 - **Product:** DigiTool
 - **Product Version:** 3.4
 - **Relevant for Installation Type:** Local;
-

Problem Symptoms:

When you search in the RD you get the message "You have not performed a search"

Cause:

VIR01 schema was not cleared

Resolution:

Clear VIR01 once a week when the application is down.

Additional Information

Running clear vir01 when the application is up may not always work.

If you shutdown the system more than once a week (for example for backup purpose) you can run the clear vir01 during the down time.
