

Aleph version / Oracle version relationships

- **Article Type:** Q&A
- **Product:** Aleph
- **Product Version:** 20, 21, 22, 23, 24

Question

What Oracle version is used by which Aleph version?

Answer

Each version of Aleph requires a specific version of Oracle.

Aleph version	certified Oracle Version	Remark
Aleph 18 and 19	10.2	
Aleph 20	11.1.0.7	
Aleph 21	11.2.0.3*	* upgrade to Oracle patch 11.2.0.4 is tested and certified
Aleph 22	11.2.0.4**	** also known as "Oracle 11r2" (Oracle 11, release 2) see also article " Support of Oracle 12c in Aleph "
Aleph 23	12c and 19c ***	*** standard: Oracle 12c starting with Aleph 23.3 the use of Oracle 12.2.0.3 (Oracle 19c) is certified. Customers of version 23 can continue to use Oracle 12c. Upgrades to Oracle 19c are only upon request as a paid service.
Aleph 24	19c	

We encourage customers running an older Oracle version to upgrade to the latest Aleph version including Oracle 19c.
