-

Question

How to update message on Change Password screen?

Answer

1. System Administration > Security > Security Options > Password Requirements 2
 2. Edit text in large text box with new message.
-

Note

When cursor is in text box, pressing Enter performs same action as clicking Save. To start new line in text box, press <Ctrl> + <Enter>

Additional Information

Option to edit Change Password message available in Voyager 8.2.0 and higher.
