

Which batch jobs should be set up in crontab?

- **Product:** Voyager
 - **Product Version:** All
 - **Relevant for Installation Type:** Dedicated-Direct; Direct; Local;
-

Question

Which batch jobs be set up in crontab?

Answer

The following Voyager® Batch Jobs should be set up to run daily in crontab:

- Acquisitions batch job 1, Order Claim/Cancel processing (acqjob 1)
- Circulation batch job 12, All Daily jobs (circjob 12)
- Circulation batch job 24, Transaction Exceptions (circjob 24)

Additional Information

See the Voyager Reporter User's Guide for additional information about these jobs.

Support can set these jobs up in the voyager crontab if they are not configured there already; open a Case in the Support Portal to request these jobs be added to the voyager crontab.
