
ORA-01017: invalid username/password; logon denied in response to "s+ abc50"

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
 - **Relevant for Installation Type:** Dedicated-Direct; Direct; Local; Total Care
-

I can use the "s+ abcnn" command to connect to abc01, abc10, etc., but when I try to connect to abc50, I get:

```
SQL-ABC50-ALEPH>>s+ abc50
SQL*Plus: Release 11.1.0.7.0 - Production on Sat Jul 10 18:55:30 2010
Copyright (c) 1982, 2008, Oracle. All rights reserved.
```

```
ERROR:
ORA-01017: invalid username/password; logon denied
```

Resolution:

UTIL-Y-8 -- Update Oracle Passwords of ALEPH Users (ora_passwd) -- for ABC50 resolved the issue. See the article [p_manage_05 stalls: "invalid username/password; logon denied"](#) (KB 16384-47857).

(Note: In order to activate a new aleph_admin passwd, a restart of the servers (pc_server, etc.) is required.

Note: Ex Libris strongly recommends keeping your passwords secure based on the [Ex Libris Password Management Policy](#).

We recommend that the default passwords be changed to a complex combination and maintained.
