## Pcircjob 39 Patron Purge does not run from crontab after upgrade

- **Product:** Voyager
  - **Product Version:** 8.2.0
  - **Relevant for Installation Type:** Dedicated-Direct; Direct; Local; Total Care
- 

### Problem Symptoms

- Patron Purge (circjob) no longer runs as expected after upgrade.
- Receive "Please use PpatronPrg in the /sbin directory" message when running patron purge.

### Cause

-y parameter is required to run Patron Purge (circjob) in Voyager 8.2.0.

### Resolution

1. Append -y parameter to end of Pcircjob command, or
2. Use new Patron Purge (XML) program.

### Additional Information

See the Technical User's Guide for more information on the -y parameter and PpatronPrg (Patron Purge).
