

Creating a shortcut to launch Voyager from Start menu

- **Article Type:** Q&A
 - **Product:** Voyager
 - **Product Version:** All
 - **Relevant for Installation Type:** Dedicated-Direct; Direct; Local; Total Care
-

Question

How can a shortcut be created in the Start menu to open a Voyager module?

Answer

In the folder where Voyager is installed, right click on the module and click "Pin to Start Menu" in the dropdown that appears. The Voyager module should appear on the top half of the start menu.

Additional Information

Note that when a new set of clients is installed (e.g., after an upgrade), the shortcut will need to be updated to point to the new clients.
