

Regularly Performed Jobs in Aleph

- **Article Type:** Q&A
 - **Product:** Aleph
 - **Product Version:** 20
-

Question

What jobs need to be executed in Aleph on a regular basis?

Answer

See attached document.

Additional Information

Note: As written in the document clear_vir01 in cold mode should only be executed when servers are down.

This article discusses how to stop / restart server processes via job_list (in conjunction with clear_vir01):
