
Patrons not being blocked from borrowing when fines are owed

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
-

Description:

It has been observed that loans are being allowed for patrons with a fine of \$1.00. Once a patron (student) has an overdue and has incurred a fine of \$1.00, that patron should be blocked from borrowing. This is not happening: patrons with fines of \$2.00 or more are not blocked from borrowing.

Tables Checked:

tab 31 - col. 15 has been set to \$1.00 for all patron statuses. This has not been changed since April 2008 and this problem has now appeared.

tab 16 - the minimum fine (col. 24) has been set to \$1.00 for those patrons who are charged a fine. The fine method (col. 14) has been set to 0, 1 or 4 according to the patron status and item status. This has not been changed since April 2008.

Resolution:

See Article 000040325 ("How to block patrons who owe more than x dollars") (https://exlibrisgroup--c.na26.visual.force.com/apex/VF_ArticleView?id=kA3320000004Lw4&srKp=ka3&srPos=0).
