

Oracle version in ARC 3.0

- **Article Type:** Q&A
 - **Product:** Aleph
 - **Product Version:** 3.0.0
-

Question

Which is the exact Oracle version ARC 3.0 runs on?

Answer

The exact Oracle version for ARC 3.0 is Oracle 11.2.0.3

As of May 2015, ARC 3.0 is also certified for Oracle 11.2.0.4.

Additional Information

Please see also document "Requirements ARC 3 Installation.pdf" which can be found in our Documentation Center for the corresponding Operating System requirements:

For each of the following operating system versions, Ex Libris recommends that you install the latest OS update level:

- * Sun — Solaris 10 OS update 6 or later, based on SPARC processors
- * Linux — Red Hat Enterprise Linux AS/ES version 5 and 6 (Update 2 or later) 64-bit, based on Intel or AMD 64-bit processors.
