
BULK: MFHD not creating with long 852

- **Article Type:** General
 - **Product:** Voyager
 - **Product Version:** 8.1.0
-

Problem Symptoms:

- * When long 852 field in bib, mfhd not created during bulk import.
- * Message in log.imp* for the import process shows (in 8.1.0 and higher)
No MFHD created.
FAILED: MFHD 001
or (in 8.0.0 and previous)
No MFHD created.
FAILED: MFHD 852
- * No issue saving same field in MFHD via Cataloging client.

Cause:

This behavior is the result of Issue VYG-4369.

Resolution:

Issue VYG-4369 is resolved for Voyager 9.1.0 and higher.

Additional Information

Replication steps:

1. In Cataloging:
 - a. Open a bib record.
 - b. Create a mfhd with the following information in it:
 - subfield b internet
 - subfield h Click on Internet Link above
 - subfield x Mxx purchases and shares access with all System
 - subfield z Licensed Resource: Access restricted to computers on campus and to off-campus users with valid ID numbers.
 - c. Notice the system will allow you to save the mfhd without errors.
2. In SYSADMIN:
 - a. Set up your bulkimport rule as follows:
 - Profile = Bibs, MFHDS
 - Select Copy 852-855.
 - Loc. Field: 852 Loc Subfield: b Loc. Ind 1: * Loc. Ind 2: *
 - Mapping Tab: Marc Item: * Item Type: electronic file or internet or whatever you want Marc Loc: * Location: Internet
 - b. Using the attached bib records run a bulkimport.
 - c. Notice when you run the bulkimport, the mfhd will not created.
 - d. You receive the message in the log.imp:
Duplicate Bibs above threshold: replace 0, warning 0.
Adding Bib record 56540.

No MFHD created.

FAILED: MFHD 852 (or FAILED: MFHD 001 if 8.1.0 and higher)

Workaround: shorten 852, or import via Cataloging client
