

## WebV: Pickup Location drop-down disappears in Chrome

- **Product:** Voyager
  - **Product Version:** 8.1.0
- 

### Symptoms

When placing request, the drop-down for Pickup Location disappears if you open calendar for Not Needed After date.

### Defect Status

VYG-5279 is resolved for Voyager 9.1.1 and higher.

### Replication steps

1. Open WebVoyage in a Chrome browser.
2. Log in and search for a record that is eligible for a Hold request.
3. Open the record & click Make a Request.
4. Select Hold request when prompted.
5. Note the Pickup Location drop-down box; then click the icon next to the Not Needed After box to open the calendar.
6. Note that as soon as the calendar opens, the drop-down box for Pickup Location disappears (the label remains).

### Workaround

If calendar is not opened, Pickup Location drop-down is unaffected; type in the Not Needed After date. Or, use a different supported browser.
