## file-03: no output file when second file-03 is run concurrently

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 20
- 

### Problem Symptoms:

When running file-03 ("Export Database Tables") at the same time for the z30 tables of two different libraries, though there are no errors, in one case the expected ./files/z30.seq file is not produced.

### Cause:

Uncertain.

### Resolution:

Run file-03 for the first library, wait till it is done, then run it for the second library.

---

## Additional Information

Though it seems that in some cases running file-03 for different libraries at the same time doesn't cause any problem; it seems that in other cases it does.

The lines missing from the unsuccessful run were these:

-----

```
[1] + Done split -l 999999999 - /exlibris/aleph/u21_1/xxx50/files/z30.seq < ...
