
Parameter z Missing from tab18.Ing Column 5 Dropdown in ALEPHADM

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 21
-

Problem Symptoms:

Parameter z is missing from the drop down box in column 5 of tab18.Ing in ALEPHADM

Cause:

Defect

Resolution:

In Development

Additional Information

Work Around to Allow the Z option in the ALEPHADM:

Adapt the header in ./xxx50/tab/tab18.Ing, col. 5 to the following (add the option Z in the {} brackets):

```
! COL 5. 1; ALPHA {Y,N,Z}, UPPER; ;
```

```
! Activate;
```

```
! Y/N/Z
```

```
! Y = register cash transaction
```

```
! N = do not register cash transaction.;
```

```
! Z = register cash transactions only when cash amount is not zero (Z influence only new transactions).;
```
