

## Circjob 44 runs for all patron groups only

- **Product:** Voyager
  - **Product Version:** 8.1.0
- 

### Problem Symptoms

When run in WebAdmin with particular patron groups specified, Circjob 44 runs for all patron groups instead

### Defect Status

VYG-4656 is resolved in Voyager 9.0.0 and higher.

### Replication steps

1. Log in to WebAdmin
2. Under Circulation, click Reports and Notices
3. Click radio button for Expire Patron Barcodes
4. Enter an expiration date
5. Highlight a single patron group in the drop-down list
6. Enter e-mail address
7. Click Submit CircJob
8. Note that Circjob 44 was run for all patron groups. Resulting screen: [email@address] /m1/voyager/xxxdb 05 -j 44 -YYYY-MM-DD -g ALL

### Workaround

Run Pcircjob -44 at the command line to specify patron groups
