
Monographic encumbrances not renewed in new fiscal year

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Problem Symptoms:

It appears that the acq-06 Fiscal rollover didn't update the encumbrances (for monographs).

Cause:

"Update Database" parameter set to "N".

Resolution:

In submitting acq-06 for Monographs set "Update Database" parameter to "Y".

Additional Information

The \$alephe_scratch/p_acq_06a log shows: "renew_encumb_mono_2014.txt,N,00,2014,M,Y,,,,,"

The "N" is the Update database value, indicating that updates were *not* to actually be made. (The \$alephe_scratch/p_acq_06b log has a value of "Y" in this position.)
