

Course Reserves List does not display in the client

- **Article Type:** General
 - **Product:** Voyager
 - **Product Version:** 8.2.0
-

Problem Symptoms:

* Unable to find reserve list when search in Circulation

Cause:

Reserve List Location is not selected in a Circulation Policy Definition.

Resolution:

Add the Reserve List Location to a Policy Definition in SysAdmin > Circulation > Policy Definitions > Edit > Location Tab.

Additional Information

If the Location is not available to add to a Policy Definition, go to SysAdmin > Security > Master Profiles and make sure the location is selected in the appropriate Profile.

To check which Location is used on the Reserve List, query RESERVE_LIST.RESERVE_LOCATION.
