
Cannot limit ledger access by Acq Security Profile

- **Article Type:** General
- **Product:** Voyager
- **Product Version:** 9.1

Problem Symptoms:

* Operator can use ledger on line item if Acquisitions Security Profile contains any location on ledger, even if other ledger locations not authorized.

Cause:

This behavior is the result of VYG-4448.

Resolution:

Issue VYG-4448 is resolved for Voyager 9.1.0 and higher.

Additional Information

Replication steps:

1. In System Administration > System > Locations, create new location, Location A
2. Add Location A to profile in System Administration > Security > Acquisitions Profile which also contains Location B
3. Log in to Acquisitions as operator in profile from step 2.
4. Create ledger using Location A and Location B
5. Search for ledger. Ledger from step 4 will not be in results.
6. Create a purchase order (PO).
7. Add line item, and choose Location B as Intended Location.
8. In Line Item details, will be able to view & select ledger from step 4.
