## Suppressed MFHDs unsuppressed when Holdings Location changed by Pick and Scan

- **Article Type:** General
  - **Product:** Voyager
- 

### Problem Symptoms:

- \* Update Holdings Location with Pick and Scan for suppressed mfhd, and mfhd is unsuppressed after change.
- \* No Change selected for Suppress from OPAC > MFHD
- \* MFHD shows as suppressed in log output

### Cause:

This behavior is caused by a defect.

### Resolution:

Defect repaired by extensive enhancements to Pick and Scan for Voyager 9.0.0.

---

## Additional Information

### Replication steps:

1. In Cataloging or Circulation, open Pick and Scan.
2. Set Item Options > Holdings Location to new location for a suppressed mfhd.
3. Leave Suppress from OPAC > MFHD set at No Change
4. Scan or type item barcode for item associated with mfhd in step 2 into Item > Barcode box.
5. Note that log output shows  
MFHD ID {mfhd\_id} Suppressed
6. Retrieve mfhd from step 2 and note mfhd is no longer suppressed.
