
WebV: Tomcat Webvoyage does not display multiple 006 fields

- **Product:** Voyager
 - **Product Version:** 9
-

Symptoms

- Multiple 006 fields do not all show in the OPAC; instead, only one is displayed by 7106 display code

Defect Status

Issue VYG-4588 is resolved in Voyager 9.0.0 and higher.

Replication Steps

1. Find a bib record with multiple 006 fields, or create one.
2. In displaycfg.xml, uncomment 7106 display code.
3. Find the record in WebVoyage.
4. Note that it only displays one 006.
5. Attempting to display 006 fields using field tag as follows:

```
<displayTags label="Includes:">  
<displayTag field="006" indicator1="0" indicator2="0" subfield="1"/>  
</displayTags>
```

results in all 006 fields displaying, but as unformatted text on one line.
